**Save 30 to 40% per month on your business phone
and high-speed internet services ...**

... More for less

Value, Reliability, Service and Speed

American Broadband operates a business just like you. And we understand what a challenge it can be – any bottom-line savings can make an impact. That's why we're happy to introduce TeleFusion™, a complete solution that combines unlimited Internet access, unlimited local calling, and affordable long-distance telephone services – all for one low price. By designing a custom solution specifically for your business, we offer **30- to 40-**percent savings over the competition.

With TeleFusion, you can receive:

- *Unlimited local and local toll calls*
- *Low-cost domestic long-distance plans*
- *Unique calling features, such as call waiting and caller ID*
- *Up to 16 Mbps Broadband Internet connection*
- *Separate email addresses and accounts*
- *Static IP addresses available*
- *Business Class Uptime Guarantee*

Discover The Broadband Advantage

TeleFusion offers speed and more speed – *it's up to four times faster* than cable, *five times faster* than local DSL, and *200 times faster* than dial-up. It's always on, so you'll never have to worry about time-consuming logins, connection drops, or busy signals. With broadband you can conduct online meetings, host your own web or mail servers, provide video conferencing, manage your own website, or support remote offices through remote access. With TeleFusion, you get big-business capabilities at small-business prices.

On Your Side

In addition to our strong value, American Broadband takes great pride in our outstanding service and support. In fact, you will receive a dedicated account manager who will do whatever it takes to service your needs.

Pay less and get more. It's fairly simple, really. **And if you purchase and TeleFusion within the next 30 days, you'll receive equipment and installation absolutely free. That's a \$150 value.** To see how much you can save, call us today at:
